To see results, pet owners should give a teaspoon of the supplement daily for three consecutive days. For Boston terriers and other dog breeds that suffer from allergies, Wondercide’s Fidoplex is a natural supplement formulated to improve hip, joint, muscle and overall skin health in dogs and cats, according to the manufacturer. The bacon-flavored daily supplement comes in 90-ct. bottles and can be chewed as a treat, swallowed whole, broken or crushed into powder and sprinkled on food, the company states. It contains the membrane on the inside of chicken egg shells, and it has no hormones, pesticides, byproducts, antibiotics, GMO, artificial colors, additives, preservatives, wheat, gluten, salt, sugar or calcium, the company adds.
